What levels of technical assistance are available?

The WINTAC provides three levels of technical assistance:

-  **Universal** TA is primarily self-directed by the user and includes accessing information and resources from our website at www.WINTAC.org.
-  **Targeted, specialized** TA includes one-time, labor-intensive events or TA based on needs common to multiple recipients and not extensively individualized.
-  **Intensive, sustained** TA is often on-site and includes a stable ongoing relationship between the WINTAC and the recipients. Intensive TA includes a series of activities designed to reach a valued outcome and should result in changes in policy, program, practice or operations that support increased capacity and/or outcomes for consumers.

How can I request technical assistance from the WINTAC?
